

MEDIA KIT 2023

Who Reads SIJ?

Reach engineers working on signal integrity, power integrity, and EMC/EMI issues with *Signal Integrity Journal*: the only peer reviewed industry journal covering these industries. SIJ is a powerful, searchable online resource paired with a yearly eBook/print edition that has made it the go-to resource for engineers.

Click on the link above to learn more about who reads SIJ

What makes SIJ different?

In short, editorial excellence. Watch the video for a message from our technical editor, Eric Bogatin, explaining our editorial process and introducing our distinguished Editorial Advisory Board.

SIJ can help you with:

“We love working with SIJ. They consistently help us reach our core SI engineering audience with innovative and fresh marketing programs, tactics and collateral. The SIJ team is easy to work with, and they love to collaborate. That is a WIN/WIN in our book.” – **Danny Boesing, Product Marketing Director, Samtec**

BRANDING

Boost Branding with SIJ E-Newsletter

- ➔ Ideal for branding or promoting a specific product or service
- ➔ Reach 14,600+ subscribers weekly
- ➔ 18% average open rate; 29% average click rate
- ➔ Cost: \$2500/newsletter, 3 for \$6500

BRANDING

Promote with Ads Next To Peer-Reviewed Content

- Leaderboard and Boombox ideal for products and service promotion as well as corporate branding
- SIJ generates up to 114,000 page views/month
- Ads appear for one month in rotation on all pages
- Two ads (any combo) for \$3000, Six ads for \$5400

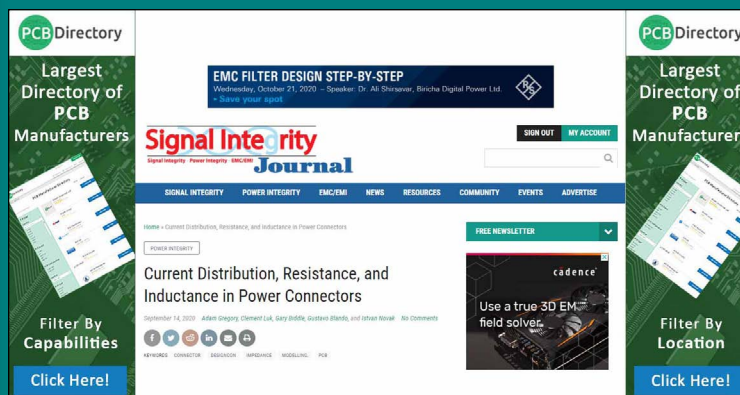

The screenshot shows the Signal Integrity Journal website. At the top, there is a dark blue banner for an advertisement titled "EMC FILTER DESIGN STEP-BY-STEP" with a date of Wednesday, October 21, 2020, and a speaker: Dr. Ali Shirsavar, Biricha Digital Power Ltd. Below the banner is the Signal Integrity Journal logo. The main content area features a navigation bar with categories like SIGNAL INTEGRITY, POWER INTEGRITY, EMC/EMI, NEWS, RESOURCES, COMMUNITY, EVENTS, and ADVERTISE. The main article is titled "Current Distribution, Resistance, and Inductance in Power Connectors" by Adam Gregory, Clement Luk, Gary Biddle, Gustavo Blando, and Istvan Novak, dated September 14, 2020. To the right of the article is a "FREE NEWSLETTER" sign-up box and a large advertisement for "50GHz REAL TIME PHASE NOISE ANALYSIS" by Holzworth. A red arrow points from the top right of the page towards the advertisement area.

BRANDING

Go BIG with Welcome or Wallpaper Ads

- Share BIG news with one-of-a-kind welcome and wallpaper ads
- Up to 40,000 website visits/month, 114,000 page views/month
- Cost: \$1000/week

BRANDING

SIJ Fundamentals Podcast (Exclusive Sponsorship | March 2023–March 2024)

- ➔ Podcast hosted by SIJ Technical Editor, Eric Bogatin
- ➔ Consists of 1 episode per month
- ➔ Acknowledgement by host of sponsorship during introduction
- ➔ Sponsor logo included on all promotional material and SIJ Fundamentals podcast website
- ➔ One dedicated ePostcard eBlast promoting each podcast episode (with sponsor logo) to 14,000 names
- ➔ Placement of podcast in the Sponsored Content section of SIJ's homepage (2 weeks)
- ➔ Social media postings on SIJ LinkedIn, targeted LinkedIn groups, SIJ Twitter, and SIJ Facebook page (including sponsor logo)
- ➔ Single Welcome Ad (1 week of run time); \$1,000 value
- ➔ Housed in the Resources section > podcasts page of the SIJ website
- ➔ Cost: \$8,000/year
- ➔ LISTEN IN AT: podcasts.signalintegrityjournal.com

Buyer's Guide Enhanced Listing

- ➔ Your logo included in your listing
- ➔ The ability to include images/image galleries, highlighting your product or service(s)
- ➔ The ability to include files for download, such as white papers or research
- ➔ The ability to include press releases and other information about your firm
- ➔ Your new products highlighted in weekly newsletter
- ➔ Cost: \$2,500/year

LOCATION

Rohde & Schwarz
Muhldorfstrasse 15
Munich D - 81671
Germany

The Rohde & Schwarz electronics group is a leading supplier of solutions in the following business fields: test and measurement, broadcast and media, secure communications, radiomonitoring and radiolocation. Founded more than 80 years ago, this independent company has an extensive sales and service network and is present in more than 70 countries. On June 30, 2014, Rohde & Schwarz had approximately 9800 employees. It achieved a net revenue of EUR 1.75 billion in the 2013/2014 fiscal year (July to June). The company is headquartered in Munich, Germany. It also has regional headquarters in Singapore and Columbia, Maryland, USA, to manage its operations in these regions.

MESSAGING

Message Directly with *The Signal*

- The Signal e-postcard is ideal for new product introductions, promoting event presence, or company news
- Reach targeted list of 10,000 subscribers
- Up to 17+% open rate; 10+% click rate
- \$3000 each; 3 for \$8000

The screenshot shows an e-postcard with a blue and white header. On the left is the SIJ logo. On the right, the text 'THE SIGNAL' is displayed in large white letters with a pulse icon above the 'I'. Below the header, the main content area is white. On the left, there is a text block: 'Now On-Demand: SI/PI Simulation and Measurement Correction Forum' followed by a paragraph of text. On the right, there is a rectangular advertisement for Cadence. The ad features the Cadence logo, the event title 'SI/PI Simulation and Measurement Correlation Forum', the text 'On Demand', and a 'VIEW NOW' button. Below the ad, the text 'Sponsored by:' is followed by the Cadence logo and a 'View Now' link.

Now On-Demand: SI/PI Simulation and Measurement Correction Forum

Learn more about Cadence signal integrity, power integrity, and EM technologies in this on-demand half-day webcast spotlighting four distinguished speakers discussing trustworthy signal and power integrity simulations at speeds up to 50 GHz. A range of applications is covered, including a 50 GHz testing fixture by Wild River Technologies, AR/VR products by Meta Platforms, complex package designs by Analog Devices, and a measurement correlation case study by Cadence.

MESSAGING

Promote Your Own Messaging with Custom E-Blasts

- ➔ Perfect for new product introductions, event presence promotions
- ➔ Provide HTML, SIJ delivers your message to targeted list of 10,000 subscribers.
- ➔ Up to 15+% open rate; 9+% click rate
- ➔ Cost \$2500

The screenshot shows a webpage for Signal Hound. At the top is the Signal Hound logo. Below it is the heading "EMC/EMI Precompliance Testing for Less". The main text reads: "Using affordable EMC precompliance testing tools from Signal Hound in your hardware development process helps you avoid costly and time-consuming redesigns after an EMC compliance testing failure." Below the text is a photograph of a computer workstation with a monitor displaying a spectrum analyzer graph, a keyboard, and a Signal Hound device. At the bottom left of the screenshot is a circular inset image of a circuit board. To the right of this inset is text: "By combining a [Signal Hound real-time spectrum analyzer](#), an antenna, some [EMC probes](#), and our [Spike](#) software, you can monitor the electromagnetic interference of your devices during the entire design/build process." Below this is another paragraph: "Signal Hound products use the PC you already own, offering an affordable step into efficient and well-grounded hardware development." At the bottom center of the screenshot is an orange button with the text "EMC/EMI testing with Signal Hound".

LEAD GENERATION

Get the best of both worlds: Print + Leads

- 1 page, 4-color ads in Technical E-Book
- Print Version (14,000+ circulation) + event bonus distribution all year
- 6 months of leads captured and delivered
- Typical 1528+ total leads and 1080+ unique leads
- Cost: \$3000 (one full page) + 20% for premium position

Annual Technical Issue

Highly anticipated by readers: “Every article in the latest print issue had really good insight and depth, and made me stop and think about what I know, think I know, maybe don’t know, should know, and more. In short, the content was outstanding.”

Bill Schweber, Engineer/Author/Editor, Jaffa Engineering

Capture Leads with White Papers

- We collect leads for you on application notes, white papers, posters, videos, case studies, internal articles, etc.
- Package includes:
 - Placement on the home page of SIJ for 1 month
 - Inclusion in one SIJ Weekly Newsletter
 - Housed in the “Resources” section of SIJ website
 - Sales leads captured and delivered
 - Averages around 70+ leads delivered (exclusive)

Sigrity X - Redefining Signal and Power Integrity

July 27, 2022 Cadence No Comments

The Cadence Sigrity X tool suite addresses the size and scalability challenges of system-level simulations in 5G communications, automotive, hyperscale computing, and aerospace/defense. This white paper highlights Sigrity X features for SI and PI analysis that enable designers to cut design respins and meet short time-to-market windows with confidence.
